Subject: RE: Question

Hey -

Thanks for the break-down.

Almost every house built in NWHills had cedar shake roofs when constructed, ergo, the slats.

Is anyone rebating radiant barrier painting?

If not, they are mullets.

Even though you didn't paint my residence, you did paint my rentals, and may certainly add my name and 'phone number to your list of highly satisfied customers. The tenant at ~~1107 E. ...~~ said that her Austin Energy bill was reduced by about \$75/month.

Jim,

It is not pretty, we have 2,925 sq. ft. + 507 sq. above the garage + pitch factor of .15 + 100 sq. ft. All total, we have 4,046 sq. ft. of coverage at .60 cents a sq. ft. = \$ 2,428.00.

Jim, it will take every bit of this as the decking has slats.....we MUST get excellent coverage.
